Fall 2026

YCSWA
Facilitating Responsible Waste Management

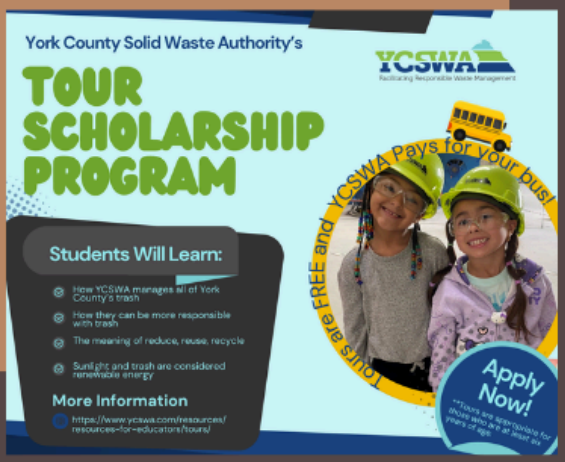

A Quick Note About Yard Waste

It's officially autumn. It's the time of year when we round up the fallen leaves, branches, and sticks in our yards for disposal. If your municipality does not have a plan for autumn yard waste disposal, use the YCSWA website to find out how to properly dispose of these items.

Click below to visit our website.

Apply for YCSWA's Tour Scholarship Program

Attention Teachers! YCSWA offers FREE EDUCATIONAL TOURS! There is no cost for our tours and YCSWA will pay for your transportation to our facility.
Simply submit a Tour Scholarship Program Application to us by December 31st. We will work with you to schedule a tour to The York County Resource Recovery Center or Hopewell Area Recreation Complex and we will work with you to pay for your transportation.
Click the button below for more information.

Paint Disposal

We frequently get asked how to properly dispose of paints, inks and dyes. There are three easy ways to get rid of these items that you no longer want or need. Here are the options:

- If they are still usable do an internet search for "donate paint/ink/dyes York PA" and you will find organizations that accept donations.
- Dispose of them in the regular garbage. Solidify any remaining paint in the can by adding kitty litter, shredded paper or a commercial paint hardener available at home improvement stores. We recommend that you double bag it to prevent spillage during transport, as well.
- Bring them to the Small Load Drop-Off Area located at the York County Resource Recovery Center.

Click the button at the bottom of the page for more detailed information.

Tire Disposal

If you can spare a minute, we will inform you on what you should do with unwanted tires. Here are two ways to get rid of unwanted tires that are off the rim and measure no more than 32 inches in diameter with a tread width no greater than 12 inches:

·Place the off-the-rim tire/s at your curb for regular trash pick-up. Contact your waste hauler directly to inquire about their tire acceptance policy.

·Bring your off-the-rim tire/s to the York County Resource Recovery Center (limit of 10).

For more information on guidelines and rates for disposing of tires at the York County Resource Recovery Center or to find out how to discard larger tires, click the button at the bottom of the page.

Wish-Cycling

You wonder if something can be recycled and you are not entirely sure that it can be recycled but you throw it into your recycling bin anyway...that is called WISH-CYCLING. We know you have the best intentions, but when unrecyclable items are taken to the recycling facility, they may cause safety issues for the facility workers if they get caught in a machine. Ultimately, this material is put in the trash and sent to YCSWA's waste-to-energy facility, the York County Resource Recovery Center. Wish-cycling does not work for York County. Help out by learning more at www.PennWaste.com or www.ycswa.com
