Summer 2023 Newsletter

**DO NOT PUT RECHARGEABLE BATTERIES IN YOUR CURBSIDE TRASH**

For Disposal Options Visit:  
**Call2Recycle.org**

If you have a cellphone, you use a rechargeable battery. If you use power tools, you use rechargeable batteries. While convenient during their lifetime, rechargeable batteries require proper disposal when they are no longer usable.

Conventional disposal of these types of batteries in your curbside pickup can cause problems! Trash is compacted both in the garbage truck and at our facility. When subjected to intense pressure these batteries combust and ignite causing fires in either garbage trucks or at our facility. Rechargeable batteries should not go into your recycling bin either. Please dispose of them properly!

Keep rechargeable batteries out of your curbside trash and recycling bin and dispose of them properly. Visit [www.call2recycle.org](http://www.call2recycle.org) for a listing of collection sites for these potentially hazardous batteries.

NOTE: Household alkaline batteries like Eveready, Duracell (AA, AAA, 9-volt, C, or D sizes) can be disposed in your regular trash.

## Do You Know How To Throw Away Yard Waste?

It's the time of year when we find ourselves collecting yard waste in bulk. Disposing of yard waste can be tricky, but we have designed an easy to use webpage that outlines your options for disposal. Click the link below for more information.

Visit [www.ycswa.com/services/waste-disposal/yard-waste/](http://www.ycswa.com/services/waste-disposal/yard-waste/) for more information on managing yard waste.

## Construction Waste

Reduce~Reuse~Recycle

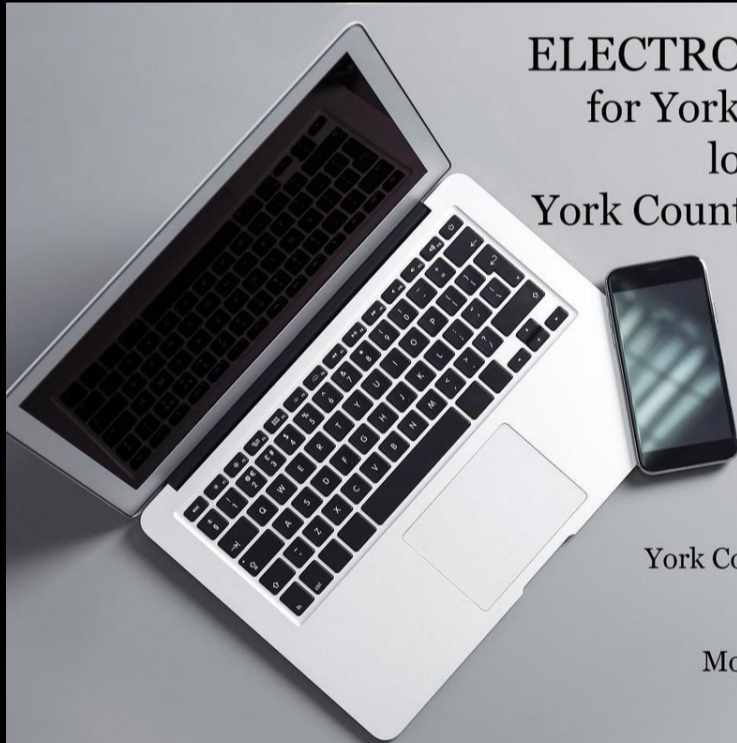

Wondering if some, or all, of the waste materials from home renovation projects can be recycled? Good news! There are businesses that will recycle construction waste!

YCSWA has compiled a list of local businesses that reuse and recycle many common building and landscaping materials. Click the link below to view the list of businesses that will recycle/reuse construction materials.

## ELECTRONICS RECYCLING for York County Residents located at the York County Resource Recovery

York County Resource Recovery Center  
Hours of Operation

Monday-Friday: 8 a.m.-4 p.m.  
Saturday: 8 a.m.-Noon

York County residents can recycle their no longer needed electronics by bringing them to our Small Load Drop-off Area located at the York County Resource Recovery Center on Blackbridge Rd. This service is FREE for all York County Residents.

For a complete list of items accepted for our FREE Electronics Recycling Program and additional information, visit [www.ycswa.com/services/recycling/electronics](http://www.ycswa.com/services/recycling/electronics).

Interested in Scheduling a Tour or Environmental Education Program?

Visit our website at [www.ycswa.com](http://www.ycswa.com)

Our Community Services Division looks forward to offering environmental education programs to schools, summer camps, and civic groups. They spread the word about how to be responsible with trash through tours of The York County Resource Recovery Center and the Hopewell Area Recreation Complex/York County Sanitary Landfill and programs such as Recycled Paper Revelations and Vermicomposting: Worms with an Appetite (for waste).

Interested in scheduling a tour or an environmental education program? Visit our website at [www.ycswa.com](http://www.ycswa.com) for additional information.
