

YCSWA Earth Day Recycled Art Contest Judge

Victoria Kageni-Woodard

Gusa By Victoria LLC is a quality ready-to-wear affordable fashion line for the professional woman globe trotter collecting items that tell stories of her travels. The sophisticated Gusa woman is a fashion conscious individual, politically savvy and easily transitions between a high profile career and community leader activities after business hours. The woman we design for is one who celebrates the cultural uniqueness of individuals. She understands that the world is made richer because of the diverse members of the community they live in. She values her time, carefully lending herself to volunteering in spaces where she can make a difference in the lives many. She is a well-traveled global citizen with disposable income to invest in well-tailored ready-to-wear pieces created using fabric sourced from distant lands.

Victoria Kageni-Woodard is a wife, mother of four & an entrepreneur who makes her home in York, PA. Her years in the U.S.A. have seen her through the workforce in several capacities within the Construction Industry. While a member of the International Union of Operating Engineers & the National Association of Corrosion Engineers, Victoria had the rare opportunity of cultivating a spirit of unity, while maintaining her integrity within a male dominated industry.

As the creative force behind Gusa by Victoria LLC, a women clothing store front, infusing her cultural heritage in everything she brings to life is what occupies her days. With a child on the Autism spectrum, Victoria also advocates for unconventional educational freedoms for all. The journey through Autism is what has propelled her in all she does today.
